EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering 2024-2028 — CGPA: 8.90
Current SGPA: 9.6/10
Rajasthan College of Engineering for Women, Jaipur

TECHNICAL SKILLS

Programming Languages: C++, Java, JavaScript
Web Technologies: HTML, CSS, Bootstrap
Frameworks & Libraries: Node.js, Express.js, React.js, EJS
Databases: MongoDB, MySQL
Core Concepts: MVC Architecture, REST APIs, Authentication & Authorization
Tools & Platforms: Git, GitHub, VS Code, Linux

PROJECTS

- ConverseAI – AI Chatbot Application** [🔗](#) [📄](#) April 2026
Tech Stack: React.js, Node.js, Express.js, OpenAI API, Tailwind CSS, Git/GitHub
- Developed an AI-powered chatbot with real-time conversational capabilities and responsive UI
 - Integrated OpenAI API for dynamic natural language response generation and interactive user experience
 - Built modular and reusable React components to enhance maintainability and frontend performance
 - Optimized chat workflows, state management, and overall application responsiveness
- Stock Trading Platform** [🔗](#) [📄](#) Jan 2026
Tech Stack: HTML, CSS/Tailwind, JavaScript, Node.js, Express.js, MongoDB, Chart.js, REST APIs, React.js
- Engineered a full-stack stock trading platform using React.js, Node.js, Express.js, and MongoDB, enabling users to simulate buying, selling, and tracking stocks.
 - Created interactive stock charts and dashboards using Chart.js / Recharts, allowing users to visualize stock trends and portfolio performance.
- Wanderlust – Full Stack Vacation Rental Platform** [🔗](#) [📄](#) July 2025
Tech Stack: JavaScript, Node.js, Express.js, MongoDB, EJS
- Designed and developed a full-stack vacation rental platform for property listing and booking.
 - Designed and implemented RESTful APIs for users, listings, and bookings.
 - Implemented secure authentication and authorization using Passport.js.
 - Applied MVC architecture for maintainable and scalable codebase.

VIRTUAL EXPERIENCE

- Deloitte Cyber Job Simulation** [🔗](#) Forage — 2026
- Simulated real-world cybersecurity tasks involving threat identification and risk assessment.
 - Investigated security-related scenarios and recommended mitigation strategies for potential vulnerabilities.
 - Gained practical exposure to cybersecurity workflows, analytical thinking, and incident response processes.

ACHIEVEMENTS

- Research Publication** [🔗](#) Dec 2025
- “The Unified Adaptive Security (UAS)-Cloud Framework: An AI-Driven Approach to Cloud Security and Data Protection in Shared Multi-Cloud Environments.”
- InnovateX – IIT Bombay** [🔗](#) Nov 2024
- Participation in InnovateX organised by Indian Institute of Technology (IIT) Bombay.

POSITION OF RESPONSIBILITY

- Team Leader, Smart India Hackathon (SIH) Sep 2024
